CLEARANCE

The Honorable William J. Casey
 Director of Central Intelligence
 Central Intelligence Agency
 Washington, D.C. 20505

Dear Mr. Casey:

As you are aware, nearly all aspects of national energy policy relates directly to the availability, security, and price of petroleum, particularly the large portion of the world supply which originates in the Middle East. Certainly, for the next decade the Committee will be unable to evaluate the competence of national planning to respond to disruptions in world oil supplies without considering the intelligence community's ability to predict significant events.

For that reason, I hereby request that a [redacted] clearance be granted to Frank M. Cushing, Staff Director of the Committee on Energy and Natural Resources.

Sincerely,

James A. McClure
